

# Parents with babies admitted to the NICU: NeoCare Solutions<sup>SM</sup> is here to help

**Your employer's health benefits package now includes free access to NeoCare Solutions<sup>SM</sup>, a specialized program designed to support parents whose babies are admitted to the NICU.**

The logo for NeoCare Solutions, featuring the word "neo" in a stylized, lowercase, white font. The letters are thick and rounded, with a modern, sans-serif feel. The "n" and "e" are connected, and the "o" is a simple circle. The logo is set against a solid purple background.

# How NeoCare can help:

## Personal Attention

Each family is assigned a NeoCoach who knows exactly what parents are going through. The NeoCoach is available to support parents while in the NICU, through the transition home, and up to the baby's first birthday.

## Helpful Tools

The Neo app gives parents instant access to educational resources about their baby's health and is the primary tool for interacting with their NeoCoach. The app can also help parents track and share key components of baby's development.

## Peace of Mind

Whether in hospital or at home, NeoCare can help answer parents' questions and concerns by phone, video or chat-based messaging. NeoCare makes sure parents have support every step of the way.

Learn more about NeoCare by speaking with your company's benefits manager or by visiting [www.neocaresolutions.com](http://www.neocaresolutions.com)

Please keep in mind that neither the NeoCare Solutions™ program, nor your NeoCoach is acting as your healthcare provider or healthcare advocate, and any information we share and discuss does not substitute for clinical care and guidance from your healthcare providers in the NICU. If you have specific health care needs or for complete health information, please see a doctor or other healthcare provider.
