

## The Weigh-In Challenge – Division of Industrial Compliance (Tussing Road)

The Division of Industrial Compliance Health and Wellness event for the third quarter of this fiscal year was a *Weigh-In Challenge*. There were **45 participants** and each weighed in once a week for eight weeks. Employees not only became more conscious of their weight but began weighing in mid week as well, just to see how they were doing.

Employee participants were grouped into teams according to the Board, Bureau or Section where they work. The teams were made up of employees from *O&M, BBS, Admin., BCC, and OCILB*. The *“winning team”*, **BBS**, lost **3%** percent of their aggregate weight. There was a tie for the *“winning individuals”*: **Fred Brown** and **Jason Marquez**, each lost, **5.3%** and **5.2%** respectively, of their initial *“weigh in”* weights. The winning employee of each team, having lost the most on their team of their initial *“weigh in”* weights, are pictured below. Congratulations are in order to all who participated! The Team winner will receive a *Plaque* which will be housed in their section of the Division for one year.

Overall, 45 employees are 200.2 pounds lighter!!!
